大学英语六级作文 篇1

Recently, every morning when I wake up, I find my air-conditioner automatically turned off. I didn't understand why at first, but soon I learned that there was a great shortage of electricity supply in our city - my air-conditioner turned off because of a power failure midnight.

With the rapidly developing industry and the ever-increasing population, demand for electricity supply is soaring. Besides, summers in recent years are much hotter than before, so most working places and households are air-conditioned, which consumes additional electricity.

Face with such a hard nut, we have to find ways to crack it. Above all, in western areas China, there is surplus of electricity supply. So, cities that are thirsty for electricity may ask for remote help. Then, when we have electricity, we should remember to save it. Set your air-conditioners at 27°C and you won't feel less comfortable than when they are at 26°C. In fact, some factories already shift their working hours to avoid the peak time of electricity consuming. My parents don't work from Monday to Friday as before - they work from Saturday to Wednesday and have the following two days off instead. This is also a way out, isn't it?

大学英语六级作文 篇2

It has been reported that a middle school in Xuzhou City has recently launched a campaign named "Away from Net-bar". More than a thousand students have signed for their solemn promise that they will not spend a single minute in the net-bars. With the nearing of the summer vacation, this campaign is especially meaningful for the healthy development of the minors.

The internet has brought people great convenience in getting information, entertainment and contact with

others, and it has also benefited some businessmen, especially the owner of net-bars. While it is true that most net-bars are running legally, it is also true that some are offering unhealthy programs that involve violence and sex content. Since most middle school students are prone to be influenced and they can hardly tell which bars are doing well and which ones are not, it is only advisable that they stay away from all. Besides, staying away from net-bars also does good to students physical health. By passively sitting too long in front of the computer screen, both their eyesight and physique suffer.

Obviously, the Away from Net-bars Campaign is an activity that is worth advocating and it merits other schools reference.

大学英语六级作文 篇3

Being online is no longer something strange in our life. To some degree, it has become part of our daily life. We can do a lot of things online, such as searching for information and communicating with friends far and near. But recently another helpful online activity has become very "in". That is online education.

Why could online education be so popular within such a short period of time? Among other reasons, the quick development of the internet should be an essential one, which makes all our dreams of attending class in the distance possible. Another underlying reason is the quick development of both society and technology. Today, modern science and technology is developing with lightening speed. To catch up with this development we all feel an urgent and strong desire to study. However, due to the great pace of modern society, many people are too busy to study full time at school. Online education just comes to their aid.

Personally, I appreciate this new form of education. Its indeed a helpful complement to the traditional educational means. It can provide different learners with more flexible and versatile ways of learning. Most of all, with online education, we can stick to our jobs and at the same time study and absorb the latest knowledge.

大学英语六级作文 篇4

With mobile phones widely used in our daily lives, various Apps emerge. Reading has therefore become more convenient. However, different people hold different views toward online reading.

Though more convenient reading becomes, I like paper reading more than online reading. The reasons are as follows. Firstly, I cherish the moment keeping company with the book. When I bury my head into the book, the special fragrance of the book slips through my fingers, into my nose, then into my brain. How marvelous the feeling is! Secondly, I can take various notes on the book as long as I want to, which is not that easy to do when reading online. When I have finished reading the book, what I harvest will be not only the knowledge and idea the book conveys, but also my systematic thinking about the book, which can be vividly embodied by my notes on the book. Thirdly, paper reading won't be distracted easily by irrelevant information which often emerges in online reading.

Based on the above three points, I prefer paper reading to online reading.

大学英语六级作文 篇5

Grabbing red envelopes has been hogging the limelight in our daily life since the 2016 Spring Festival. At no point is it clearer that this activity has endowed our vapid life with the flavor of high-tech and fun, especially giving traditions typical of festive periods, such as the Chinese New Year and Chinese Valentine ' s Day, a facelift.

However, some people may be trapped in a situation where they put the cart before the horse. Disappointedly, what some people do on festivals is not to communicate with their relatives and friends but to hold their cell phones and fix their eyes on the screen all day long, just in order to grab red envelopes. For my part, what really matters is the relationship instead of the money. Essentially speaking, gifting red envelopes is beyond reproach. Only in a rational way shall we not be reduced to slaves of materialism or hijacked by the high technology.

Festivals offer precious opportunities for us to send good wishes to our beloved ones and what we should do is to cherish these chances rather than to ignore the essential connotation of the festivals. Anyhow, kinship, friendship and other relationships are above anything and we ought to make every endeavor lest the profound cultural atmosphere of traditional festivals should decline.

大学英语六级作文 篇6

When asked about their opinion of career and family, people always respond differently. Some people deem it more important to pursue their career, while there are always other people who argue that family should be the number one in one ' s life.

It goes without any question that career plays a key role in our life. In the very first place, career can give us an aim to live on. Without career, much of our living time will be certainly wasted. What ' s more, career can provide us with a means to live on. Most of the people earn their income from a job. On the other hand, family is also an indispensable part of life, as many people will admit. Family is always regarded as a place where we can escape from troubles in life. In addition, we can obtain a sense of belonging to from family. Without it, anyone will feel lonely and desperate.

In my opinion, career and family are not in opposition to each other. Rather, they can enhance each other so that one ' s life can become better and better. Therefore, it ' s not a choice between right and wrong, but one between ideal and practical.

在谈到自己的事业和家庭的.意见要求，人总是有不同地反映。有些人认为这更重要的是追求自己的事业，而另一些人认为家庭应该是一个人的生活当中的首位。

毫无疑问，事业在我们生活中起着关键作用。首先，它让我们活得有目标。没有职业生涯，我们生命的大部分时间一定会被浪费。更重要的是，职业可以提供我们生活的来源。大多数人从工作中赚取的收入。另一方面，很多人必须承认，家庭也是生活中不可缺少的一部分。家庭一直被认为是一个我们可以摆脱生活中的麻烦的地方。此外，我们可以得到一种家庭的归属感。没有它，人会感到孤独和绝望。

在我看来，职业和家庭是不矛盾的。相反，它们可以加强彼此，使自己的生活能够越来越好。因此，它不是对与错之间的选择，而是理想与现实之间的选择。

大学英语六级作文 篇7

Today, a growing number of children in China are staying at home, not because they are giving up education but because their parents think they will actually receive a better education at home. They are being homeschooled at every level — kindergarten, primary, junior middle and even senior middle school.

People's opinions vary on homeschooling. Some people support it, saying China's current education mode puts heavy study pressure on students and many of them suffer from depression and even commit suicide. Some oppose it, maintaining that students need interaction with classmates, so that they can fit into society. Still, there are people who insist that homeschooling is a game for rich people only, which cannot be expanded to the whole of society.

Personally, I think homeschooling is advisable as long as the family can afford it. As people's personalities differ, so education should be diversified. What's more, we do have successful examples of homeschooling. For example, Zheng Yuanjie, a famous Chinese writer of children's stories had his son study at home after his son finished primary school study. Today, his son has grown up to be a successful person.

大学英语六级作文 篇8

It has long been accepted that a smile is the best language. The truth of a smile is that it is like a seed that can grow into a towering tree and at long last it has deep and profound effect on people's lives.

At the moment we get in trouble, get misunderstood or give thanks, a smile is more helpful than any other expression. Many daily incidents can probe the strength/power of smile. To begin with, we should always smile to ourselves, so as to keep optimistic when in difficulty. At the same time, smiling to others is necessary, too. Sometimes, we may face misunderstandings that are hard to explain clearly simply by words. Then, a smile can show them the genuine sincerity to win their trust. Besides, smile is a worldwide language to say "thanks" and can bring pleasant feelings to others.

In a word, perhaps the best example of universally understood body language is smile. As the old saying goes, smile to others, and sooner or later they will smile back to you.

大学英语六级作文 篇9

Want to be a small fish in a big pond or the other way round? Every graduate faces this question when he starts his career. A large number of college graduates prefer to stay in the big cities. To them, big cities mean more experiences, more opportunities to see the big world and more space for career development. At the same time, higher salary is another temptation.

But some other graduates want to start in small towns. Even though there may not be many big companies, they can have a quieter and less competitive life. Another reason is that they can be a big fish in a small pond. They can easily get the management's attention and may win promotion earlier.

As far as I am concerned, I prefer to start in a metropolis like Shanghai. A good begin is half the battle, and in Shanghai I can find a job in a big company where I can meet people from different places and cultures. I will learn from them what I can not get from textbooks.

大学英语六级作文 篇10

Nowadays , with the rapid development of our society , almost all the graduates have to face a choice : to get a job first or to find the job you like first ? As far as I am concerned , the graduates should get a job first and then choose the job they like. The reasons can be listed as follows :

First of all , for many students , even they themselves don ' t know what kind of job they want to choose. For these students , to get a job first can help them find out their favorite job through trying different work. What ' s more , the graduates are all under great employment pressure. There are thousands of graduates need to find their jobs every year. So if the graduates don ' t get their jobs as soon as they leave the school , they will miss the best chance to get a job. Last but not least , one can accumulate experience and broaden horizons in his or her first job. It ' s certain that these experiences will contribute to future job. As the famous saying goes “ One should apply theory to practice. ” , students should apply what they have learned in class to their jobs , thus enhancing their working skills.

Above all , nowadays under the greater employment pressure , the graduates should get a job first and then to choose the job they like. Since students can have a better understanding of what they like and gain experience in the first job.
