初一英语周记范文一

Dear Friend Thank You For your Love

Dear friend Lucy, thank you for your love. We get on well with each other in day-to-day lives. As for my friend, you always help me with my study. When I have a few difficulties, you always encourage me to get over difficulties. www.zuowenku.net

Do you remember? Last semester, I forgot to do my homework. So the next day, I wanted to copy your homework. Because I really didn't want to be criticized. But you said you couldn't lend your homework to me, it was very bad solution. Even if I said I would never do it except this time. Please lent me your homework. But you still said maybe it would start a bad habit. I should do my own homework. So I was pretty angry. I said I wouldn't become your friend anymore. A few days later, I thought I was sorry. So I told you to forgot this thing. I wanted to make friends with you. And I was happy you said OK. www.zuowenku.net

Now I'm certain you are my best friend. Dear friend Lucy, thank you for your love.

初一英语周记范文二

I have no dream because I dreamed last night.

Everybody has a dream. They hope that enemy become friends. So we hope the Japanese become our friends after the end of World War II, but now the enemy get back.

An island with no person living on named Fishing Island in East Sea of China, which is part of our holy homeland, now is in the control of the Japanese navy. Some people who love our motherland sailed to the island but were struck by the Japanese navy. Some of them got caught, and the Japanese navy refused to send them back to China at once! It seemed that the people who sailed to Fishing Island were against the Japanese navy and got into the Japanese territorial sea.

This hurt everybody in China. They talked on net, and said that the enemy had got back. Nearly everyone claimed that why not do something for our island and our country-mates?

Now a Japanese law says that Japan should exploit petrol in South Sea of Japan. Certainly it is none of our business, but look out, the South Sea of Japan is the East Sea of China, and the petrol is all around the Fishing Island. It means that a foreign country wanted to exploit petrol in our territorial sea, but our government did nothing about it except for some announcements.

So, rise up, our country-mates, our dream was up last night; we must be strong and powerful, or, the enemy will be really back!

初一英语周记范文三

I'm a student in Senior Three. We have made a survey--"Who do you turn to when in trouble?" Here are the results.

Most of the students will go to their classroom or friends when in trouble they're almost of the same age, so they can talk with and understand each other easily. Some students will tell their teachers or parents about their troubles and ask for their help as the teachers and parents have rich experience and love them very much. They can be trusted by these students. Only a few students solve their problems all by themselves. They hate to talk with others and can't get on well with others. They have few friends.

In my opinion, when in trouble we'd better ask our teachers, parent, friends or classmates for help.

初一英语周记范文四

The Moon Festival or Mid-autumn Festival is one of the three major traditional festivals celebrated by Chinese people. Like harvest time in other countries, the Mid-autumn Festival actually began as a thanksgiving celebration, honoring the Soil God and the Crop God. This is also a time for family reunions.

Chinese people enjoy moon cakes during this feast just as they eat rice dumplings for the Dragon Boat Festival. It is quite appropriate to bring moon cakes with you in token of festival greetings when calling on people during this season.

初一英语周记范文五

What is honesty? Honesty means speaking the truth and being fair and upright in act. Considered a virtue, it is admired in every country and every culture. So, is it necessary to be honest all the time.

However, there are people who try to get benefits by dishonest means.

For example, some students copy the exercises done by others or cheat in examinations in order to get good marks. The same thing may be said of a merchant who tries to get rich by deceiving customers. Those people may succeed for a time, but sooner or later, they will be caught.
