The area of green was reducing in the last decades because of the profits that human being chased.

Though the government has carried some policies to protect the forest and return part of the green, our environment has been still damaged badly. For example, the national treasure giant panda is dying out. One of the main factors is the lose of conservation areas. In the 1990s, people cut trees for making living, which destroyed the forest and giant panda lost their living places, so the number is falling down all the time.

Spanish government advocated March 21st as the World Forest Day. They meant to call for the public to protect the forest. In deed, we need such a day to remind us of the importance of green.

If we lost it, then not only animals but also human will die out.

因为人类追逐利润，绿植面积在过去的几十年里逐渐减少。

尽管\*\*\*府实施了一些\*\*\*策来保护森林并且绿植面积有所回升，但是我们的环境仍然被严重破坏。例如，国宝大熊猫面临灭绝，其中一个主要原因是失去保护区。20世纪90年代，人们为了生活，砍伐树木，破坏森林使得大熊猫失去了生活的地方，所以大熊猫的数量正在下降。西班牙\*\*\*府提倡把3月21号作为世界森林日，他们旨在呼吁大家保护森林。实际上，我们也需要这样的一天来提醒我们绿色的重要性。

如果我们失去了它，那么不仅动物，人类也会灭绝。

Every person needs sleep everyday. But with the high development of society, most people have more and more things to do and have less time to sleep.

As a result, many people are lack of sleep. For a short time, they may not realize the bad side of it, but it will bring something bad for them after a long term. First of all, lack of sleep will do harm to people ' s look. If they do not sleep enough, they will get black eyes and bad skin easily, which will make people look no so beautiful. Secondly, lack of sleep is bad for the spiritual outlook. A person who lacking of sleep always looks tired and has no power to do things.

## 英语高中作文 篇7

some people have very good memory and can easily learn quite long poems by heart.

There are other people who can only remember things when they have repeated them again and again. the famous english writer, charles dickens said that he could walk down any long street in london and then tell you the name of every shop he had passed. many of the great men of the world have wonderful memories.

a good memory is a help in learning a foreign language. everybody learns his own language by remembering what he hears when he was a small child, and some children----like boys and girls who live abroad with their parents----seem to learn two languages as easily as one. in school it is not so easy to learn a second language because the pupils have so little time for it, and they are very busy with other subjects as well.

a man ' s mind is rather like a camera, but it takes photos not only of what we see but also what we feel,hear, smell and taste. when we take a real photo with a camera, there is much to do before the photo is finished and is readyfor us to show to our friends. in the same way there is much work to be done before we can keep a picture forever in our minds.

memory is the diary we all carry about us. we keep things we have eperienced in this diary.

## 英语高中作文 篇8

the large number of our population has become one of the most serious problems of our society. According to a recent survey of the National Bureau of Statistics, there are more than 1.3 billion people in our country, which account for about 1/5 of all the people in the world. the same survey also predicts that our population will grow quickly in the years to come.

Overpopulation has brought about a series of negative effects to our economic development and social security. In the first place, too many people impose a heavy burden on our environment. As a result, we suffer from a shortage of fresh water and natural resources. In the second place, as the supply of labor GREatly exceeds the demand of the society, many people become employed. This is a source of social unrest.

Last but not least, we have to manufacture all kinds of products to meet the needs of the people, which causes environment pollution to our lakes and land.

Serious though the problem seems, we have to take some measures to tackle it. On the one hand, the government should carry out more strictly the policy of family planning, thus reducing the total number of population. On the other hand, all the people should realize the harms of overpopulation. With the concerted efforts of all the parties concerned, we ' re sure to solve the problem in the future.

### Health or Wealth?

Which is more important, health or wealth? When given this question, different people have varied answers. Some insist that health plays a more important role in our life, while others see more advantages arising from wealth.

the first group of people quote the old saying "Health is above wealth" to prove their idea. they argue that, on the one hand, a strong person can do almost anything as long as he/she tries hard. On the other hand, however, rich people will not be able to enjoy the wealth if their days are numbered.

In contrast, the advocates of wealth have such arguments as follows. For one thing, wealthy people will be able to buy more healthful foods. For another, they can enjoy better facilities to improve their health. (Take my neighbor, Lao Wang, as an example. He had a heart attack and is in hospital. However, he cannot afford the expensive operation, which costs as much as 100,000 yuan. therefore, he has to lie in bed hopelessly. If he were a rich man, his life could be saved.)

As far as I am concerned, both health and wealth are important to our life. We should try to strike a balance between them and gain wealth with a healthy body.

One morning last April, Joan was lying in bed when the telephone rang. It was her friend, Dave, who invited her out for a picnic at the seaside.

Later that day she left her flat and walked to the bus stop to catch the bus. Joan was wearing a T-shirt and skirt as it was quite hot. As she sat on the bus she looked out of the window. The sun was shining. She saw a plane going over a forest and some horses in the fields.

Before long she arrived at the seaside and met Dave. They went down to the beach and had their picnic next to a rock. They had sandwiches and crisps, and Dave painted a picture. They had a lovely day.

## 英语高中作文 篇11

In our life , pains and happiness are always together . Its just like standing under the sun , youll get the sunshine but also the shadow . We all have pains and troubles when we grow up . We cant escape from them . Opposite , we should face them and solve them .

When I was in grade seven , I used to be really helpless and lonely . I had so much trouble with my study and my classmates . I could seldom understand the teacher when I was in class , I was shy to ask how to solve a question when I didnt know how to do it , I even never finish my homework after school . Because of these problems . I didnt have friends . Really , at that time , I thought no one liked to be a poor students friend. No one paid attention to me .

But I know , I couldnt be a person that no one liked me . So , I asked my teacher many times "how to make friends", and I asked my parents , I even search the Internet for a proper answer . At the same time , I studied much harder than before , I tried to do my homework by myself , I did a lot of exercises , and I read many books . I also tried to talk to my classmates and made friends with them . At first , they were very surprised and tired to avoid me . I felt really discouraged and painful , but I wiped my tears off and tried my best , finally , I made it , my scores went up and I also had great friends .

Today , when I think about those days , I believe that attitude decides everything . If I gave up when I was in grade seven , I wouldnt become todays me . Growing pains can bring happiness , it depends on whether you can see the thing that behind it . In the way we grow , pains can make you stronger and lead you to success .

Along with the time development accessing the net already turned the extremely universal matter. No matter is adult or the child so long as mentioning the computer all think of internet. But accessing the internet is advantageous but also has shortcoming.

I knew very many people access the net mainly is for playing games which is very bad for the study. Therefore

some people believed the elementary and middle school students lack the self-control.

But there are many people approving to accessing internet why? Because internet can provide to the people very helps. First the network looks like a library we can look up very many materials easily and it is quicker than the speed of consulting books; Next we may read a richer news on-line; In addition accessing the net also has other functions for example E-mail telephoning on the net and so on.

Actually accessing the net has its profit and the shortcoming place. We use it to open to expand the field of vision the study knowledge but must certainly grasp the discretion.

### 英语高中作文 篇13

Since I went to college, I feel so excited about the new chapter of my life. I have imagined the campus life for so many years. Now I finally come to this stage. I have much time after class, so I need to learn to deal with it. After two years' struggling, I find the right way to spend my time.

The first thing for every college student is to learn major knowledge. In China, so many students think college time is used to play instead of study, so they skip class. This is a big mistake. College is the stage for students to master practical skills, which decides what kind of job they will work on. So I study very hard from Monday to Friday. I don't want to miss the important knowledge.

The second thing for college students is to join the after-class activities. Joining the activities can not only learn more skills, such as dance and sports, but also can make friends. Campus is like a small society. Students need to learn to make connections with other students, so that they can win more chances. I learn a lot from my new friends and know how to communicate.

My college life is wonderful, I learn both knowledge and social skills.

### 英语高中作文 篇15

When I go to high school, our school has the rule to ask students to live in the dormitory.

Most students live with their parents before, so we all feel excited and afraid of the group life. Luckily, I have three nice roommates. Soon we become close friends. Living with others, we learn to do the house work, such as everyone needs take turn to clean the floor, when we have something good to eat, we will share with each other. The group life makes us have less private space, but we enjoy the moment when we have the little talk before sleep, these secrets that we don't want our parents know can talk to these girls.

What's more, I become much independent. I learn to take care of myself and have really grown up.

## 英语高中作文 篇16

I think most people have the moment to be annoyed by the technology. For example, the task is prepared to be finished in the certain time, but as we are easy to be lost in the computer games, nothing will be completed in the end.

Technology indeed brings convenience, it improves our efficiency, but at the same time, it also distances people's communication. A lot of my friends spend all their time in searching the Internet, even when we are sitting in a table, everyone lowers down their heads and focus on playing smart phones. When I play jokes, no one gives me the response, I feel lost. We are just sitting face in face, while I feel the largest distance. The moment we talk to our friends and families is precious, don't let smart phone controls your life.

Just put down the phone and have a nice talk.
